

RESOLUTIONS BEING PASSED IN IRELAND FAVORING THE TREATY

Ten Municipal and County Bodies Have Adopted Resolutions—Other Associations Also are in Favor of the Treaty—Labor Bodies Appear Opposed to Arrangement

(By The Associated Press)
DUBLIN, Dec. 30.—There is nothing on the schedule for Monday's meeting of the Dublin corporation referring to the peace treaty with Great Britain. Many corporation members also are members of the Dail Eireann and it is declared that any debate by the corporation or division on the subject would simply follow the lines of that taken in the proceedings of the Dail.

Of the important county and municipal bodies there are fifty in Ireland. Ten of them have held special meetings during the Christmas recess of the Dail and adopted resolutions favoring the treaty. The opinion is held generally that its endorsement will also be moved at any meeting called during the coming week.

In addition to statutory and administrative bodies, various associations of farmers and horse breeders and trainers are adopting resolutions approving the treaty.

CHICAGO TO BE MADE PORT OF ORIGINAL ENTRY

Great Lakes Transit Company Acquires Docks

(By The Associated Press)
CHICAGO, Dec. 30.—Levy Mayer, vice president of the Great Lakes Transit Corporation, announced today that a deal had been closed whereby the company will make Chicago a port of original entry and delivery between here and Buffalo.

Some time ago the Great Lakes company bought the Lehigh Valley Lake fleet and it was announced today that it had purchased from the Lehigh Valley railroad company two large warehouses on, and leasehold interest in, dock property between North Water street and the Chicago River.

Mr. Mayer stated that the Great Lakes company, which has 23 boats, is considering the purchase of ten ocean-going steamers for Great Lakes service. Eight boats will be put in service in the spring and as many additional steamers as the traffic demands. Three weekly arrivals and departures from Chicago are planned and the line expects to carry between 3,000,000 and 4,000,000 tons of freight each season, he said. Mr. Mayer added that the company expected to make joint rate agreements with western and southwestern railroads and tariffs covering the traffic will be filed with the interstate commerce commission.

Q. TO INAUGURATE PENSION SYSTEM

(By The Associated Press)
CHICAGO, Dec. 30.—President Hale Holden of the Chicago, Burlington & Quincy railroad who on Dec. 1, announced the inauguration of a pension system for employees of the railroad today issued the following statement explaining the features of the plan and the conditions under which it will become effective.

"After continuous service of at least 20 years pensions may be granted to certain classes of employees upon reaching the age of 65 years and to other classes after the age of 70 years is attained. The event of physical disability the age limit has been reached, provided the employee has been in continuous service not less than 25 years.

The amount of the pension is calculated in accordance with a rule that has been generally adopted and which is in proportion to the years of service and the wages of the employee during the last ten years of service but with the provision of a minimum of \$1 per month for each year of service, or not less than \$25 per month. The plan provides for the entire expense to be paid by the company without contributions by the employees."

ELEVATED WRECK CLAIMS ONE VICTIM

New York, Dec. 30.—One person was killed and 15 others were injured tonight in a rear-end collision at the 42nd Street station of the Ninth Avenue railroad. Passengers were boarding a south-bound train, when another traveling in the same direction crashed into it.

REACHES END OF EFFORT TO CURB NAVAL ARMAMENT

Limit Future Tonnage in Airplane Carriers

(By The Associated Press)
WASHINGTON, Dec. 30.—The arms conference has virtually reached the end of its effort to put a curb on naval armaments. To the capital ship settlement was added today an agreement for limitation of future tonnage in airplane carriers, then the naval conference adjourned indefinitely, leaving various problems of detail to a sub-committee of experts.

A declaration with regard to use of the submarine and an agreement not to construct any auxiliary vessel hereafter with a tonnage of more than 10,000, are expected also to be added to the accomplishments of the conference. A five power treaty embodying the points on which there is agreement now is in process of drafting.

There are indications, too, that the four power treaty to preserve peace in the Pacific which already has been signed, will be further clarified before the conference quits. The American delegation is understood to have withdrawn any objection to the Japanese proposal that the treaty's scope be defined as not including the major Japanese islands.

What is to be done about the far eastern problems now becomes the big unanswered question of the conference. Japan and China are deadlocked in their efforts at a separate settlement of the Shantung controversy and, as a consequence, all the other far eastern discussions are at a standstill.

It was indicated tonight that a meeting of the far eastern committee would be held next week, at which China would attempt to transfer the Shantung negotiations into the full conference. Meantime senate discussion of the accomplishments of the conference is continuing, although the senate is not in session.

Senator Edge, Republican, New Jersey, today declared in a public statement that the Washington negotiations had laid the foundation for great progress tomorrow's peace and good will. Today's agreement on airplane carriers a type of ship which still is in the experimental stage was reached quickly by the naval committee after the American delegation had modified its limitation proposal to conform to the figures which the several powers presented as representing their individual desires.

Under the agreement the United States is to have 135,000 tons in airplane carriers, Great Britain 135,000 tons, Japan 81,000 tons, France 60,000 tons and Italy 60,000 tons. The previous American plan would have given the United States 80,000 tons, Great Britain 50,000 tons, Japan 45,000 tons, France 28,000 tons and Italy 28,000 tons.

YOUNG PEOPLE IN BLOOMINGTON FOR BIG CONFERENCE

Nearly One Thousand Delegates Are Registered

(By The Associated Press)
BLOOMINGTON, Ill., Dec. 30.—Nearly 1,000 delegates are registered for the Illinois State Young People's conference, in session here, under the auspices of the International Sunday School association. It is the first conference of its kind in Illinois, although other states have had similar ones.

The convention is scheduled for two days, beginning this afternoon, and ending with a watch night religious service on Saturday, when the new year will be heralded with prayer and hymns.

CORN RECEIPTS BREAK RECORD

(By The Associated Press)
CHICAGO, Dec. 30.—Corn receipts at Chicago for 1921 with the last week estimated, broke all records, being 184,385,000 bushels, or more than double those of 1920 and 50,900,000 bushels in excess. Flour also set a new record of 1,896,000 barrels. Arrivals of wheat and oats were below the average and arrivals of barley were the smallest since 1882.

Wheat receipts were 45,635,000 bushels; oats, 8,723,000 bushels; and barley, 7,720,000 bushels. Aggregate receipts of the five grains were 324,669,000 bushels, an increase of 117,632,000 bushels over 1920 and an amount exceeded only four times in the history of the Chicago market.

PROVINCE OFFICERS ARE ELECTED BY FRATERNITY

LINCOLN, Neb., Dec. 30.—Province officers were elected today at the convention here of the Sigma Alpha Epsilon fraternity, comprising the states of Nebraska, Iowa, Kansas and Missouri. The following were elected: Province Archon, Roscoe C. Chambers, Kansas City; deputy archon, Wilbur J. Teeters, Iowa City; recorder-treasurer, John McClung, Manhattan, Kans. Iowa City was presented with the scholarship.

NEGRO CONFESSES TO MURDER CHARGE

PEORIA, Ill., Dec. 30.—Tom Guyton, negro, arrested tonight as he was getting out of a box car in East Peoria yards, confessed to murdering Claude Street, negro, at Potts Camp, Miss., police say.

CRIMINAL COURT JUDGES IN CHICAGO HAVE BEEN BUSY

3,000 Cases Have Been Disposed of During the Past Year

(By The Associated Press)
CHICAGO, Dec. 30.—Despite the fact that Illinois Criminal court judges have disposed of nearly 3,000 cases in the last year, crime is gaining on the judiciary, the annual report for the criminal court, made public today, disclosed. The report shows that in December 1920, 1,513 cases were pending while at present 2,026 undisposed of indictments are pending.

Cook county from December 1921 sent 415 inmates to the penitentiary, 324 to the Pontiac Reformatory, 461 to the House of Correction and 174 to the county jail to serve sentences, while 697 trials resulted in acquittal verdicts and 692 persons were placed on probation.

The statistics also show that 13 persons were sent to Chester asylum for the criminal insane, two to the Dunning Institution and eight were sentenced to hang. The report of Jailer Peter C. Lawrence shows that the institution during the past year housed 10,642 prisoners and that eight of these were hanged.

SIXTY FIVE HUNDRED GALLONS OF ALCOHOL FROM BRITISH SHIP

Captain Amoro of Schooner Is Placed Under Arrest

(By The Associated Press)
BOSTON, Dec. 30.—Sixty five hundred gallons of alcohol from St. Pierre, Miquelon, was landed somewhere on the New England coast from the British Schooner Golden West before she was picked up in Massachusetts Bay by the Coast Guard Cutter Acushnet, according to charges made against her captain and crew by the government today.

Charged with "unloading and landing" the alcohol, Captain Dennis Amoro of Saugus, skipper of the Golden West, and one member of the crew, Genaro Balsano, of Boston, were arrested on federal warrants. Both pleaded guilty in federal court. Four other members of the crew were detained as material witnesses. In default of bail all six men were sent to East Cambridge jail to await a hearing on Tuesday next.

Filippo Bruno, of Boston was arrested later. He was held in default of \$10,000 bonds on the same charge as that pending against Balsano.

ALLGED DIRECTORY FRAUD IS UNCOVERED

(By The Associated Press)
NEW YORK, Dec. 30.—A gigantic directory fraud alleged by the district attorney's office to have fleeced thousands of business men in the United States, Canada and Mexico, out of \$1,000,000 during the last thirty years, was charged today, when indictments against five New York defendants were made public.

The indictments, charging grand larceny in the second degree, named James H. White, John P. White, Michael White, William B. Orr and Arthur A. Bowen. All were said to be wealthy.

The scheme, as outlined by Assistant District Attorney Banton, was for solicitors representing the defendants to get from merchants, their signatures to hundreds of looking receipts for free copies of a trade directory which later came back so altered by insertion of a few lines as to become advertising contracts.

STILLMAN CASE TO BE HEARD PUBLICLY

MONTREAL, Dec. 30.—All testimony taken in Canada in the Stillman divorce case will be heard publicly, Eugene Godin, commissioner named to conduct the Canadian hearings, announced today.

Mrs. Ann U. Stillman, who arrived in Canada today and went to Quebec pending opening of the hearings on January 11 is prepared to produce a score or more witnesses in an effort to disprove allegations of intimacy with Fred K. Beaulieu, Indian guide, who was named as co-respondent by James A. Stillman, New York banker.

KANSAS WHEAT CONDITIONS NOT ROSY

Topeka, Kansas, Dec. 30.—The second largest wheat acreage ever sown in Kansas, at the lowest December condition ever recorded, feature the federal crop report issued here today by Edward Paxton, statistician. The 11,569,000 acres sown is one per cent more than seeded a year ago and only slightly less than the record established in the fall of 1918.

The December condition is 60 per cent of normal as compared with 88 per cent a year ago and 87 per cent for the ten year average.

PRESIDENT HARDING ASKS WALLACE TO CALL CONFERENCE

Wants a National Gathering at Washington to Suggest Practical Ways to Relieve the Agricultural Depression Thruout Land—Should Also Give Consideration to Future

(By The Associated Press)
WASHINGTON, Dec. 30.—President Harding in a letter to Secretary Wallace of the department of agriculture, asked that the latter call a national conference at Washington "to suggest practical ways of improvement" for "the severe agricultural depression which exists thruout the land."

Prompt action was taken at the department of agriculture in response to the request, telegraphic invitations being dispatched immediately to a number of organizations and individuals whose attendance is desired at the gathering.

Secretary Wallace said tonight that the date of the conference had not yet been fixed nor a complete invitation list made up.

It is expected, however, that the conference will be held within a month and that in addition to farmers and their organizations, industries associated directly and indirectly with agriculture will be called in.

"No one will pretend that the present conditions could have been avoided," President Harding said in his letter to the secretary, "but none of us is willing to agree that there ought not to be some correct and constructive steps taken to remedy the severe hardships under which so important a portion of our productive citizenship is struggling. I am convinced that a conference may be made a very helpful agency in suggesting practical ways of improvement particularly if brought into co-ordination with the helpful investigation which has been begun by a congressional commission committed to a related work."

Should Look to Future
The president further suggested that the conference might divide its work into two sections; one "for consideration of our present-day difficulties, which the temporary, are serious and need effective attention," while the second could deal with a survey of the future in an effort to determine upon general policies.

The letter added:

"It seems reasonably certain that as the world comes out of the present period of disorganization, this country may find itself confronting new conditions which may very directly influence both our agricultural and industrial life. We should anticipate such changes and endeavor to prepare for them. It is unthinkable that with our vast areas, our unparalleled endowment of agricultural resources and the resourcefulness of our farmers, we should accept the status of a distinctly industrial nation. Our destiny seems to require that we should be a well-balanced nation with a high development of both industry and agriculture. I feel sure it is the national wish and purpose to maintain our agriculture at the highest possible efficiency."

"It is unquestioned that a conference will bring us to a clearer understanding of the problem before us. I must leave the making up of the conference to our more intimate knowledge of those who may confer helpfully, but will be glad if you will immediately issue invitations so that both the country and the government may have the benefit of the earliest possible suggestions which will come from such a meeting."

"I am in complete accord with the president's conception of the matters the conference should consider," Secretary Wallace announced, "and the character of the representation I shall try to carry out in his wishes in detail."

INSTRUCTED TO REFUSE PAYMENT

(By The Associated Press)
WASHINGTON, Dec. 30.—President Harding has directed Thomas W. Miller, alien property custodian, to refuse payment of fees demanded by attorneys whenever in the judgment of the custodian such fees are excessive, it was stated today at the white house.

The statement was also made that an executive order had been issued directing disallowance of certain fees, the president acting after investigation of a report that charges made in one or two cases of attorneys employed under the previous administration were excessive.

SOMETHING WRONG WITH SOLAR SYSTEM

Swarthmore, Pa., Dec. 30.—Something is wrong with the solar system, Dr. Ernest U. Brown, head of the mathematics department of Yale University told members of the American Astronomical society in session today at Swarthmore College. Either the earth's rate of rotation is slowing down or the moon is moving faster. This conclusion was reached by Professor Brown when he observed that the days are becoming longer.

AERO CLUB TO HOLD ANOTHER AIR CONGRESS

Omaha, Neb., Dec. 30.—The Omaha Aero Club under whose auspices a national air congress was held last November at which Bert Acosta established a world's record for a 150 mile closed course for heavier than air craft, last night decided to hold another congress in 1922.

SENATE PLANNING TO START WORK ON TARIFF MEASURE

Aim to Have Bill Ready Early in February

(By The Associated Press)
WASHINGTON, Dec. 30.—Senate tariff makers plan to start next week the re-drafting of the so-called permanent tariff bill passed by the house last spring. Their aim is to have the measure ready for the senate by early February, but because of the great task involved in passing on the more than 100 items in the bill, this hope may not be realized.

The first task before the finance committee is a decision as to the adoption of a straight out American valuation plan of assessing duties, or the substitution of a plan similar to that outlined by President Harding in his message to congress early this month. Most members of the committee apparently are agreed that some special arrangement will have to be made if the measure to be drawn is to afford real protection to American industry from the cheap producing countries in Central Europe.

Hearing on the tariff virtually were closed today, although on January 9, representatives of Southern Tariff association will appear. Lumber and dairy products were the principal subjects discussed today, the lumber hearings being marked by charges by Robert B. Allen of Seattle, speaking for the West Coast Lumber Manufacturers association that a Canadian "lobby" in Washington was fostering "an insidious propaganda" against the proposed duty of 50 cents a thousand on shingles and the provision of the Fordney bill giving the president authority to impose a duty on lumber if countries now taxing American lumber imports decline to remove that tax.

These provisions were opposed by Donald D. Cron, of Minneapolis for the Western Pine Manufacturers' association, Harrison Patton for the Northwestern Lumbermen's associations and other witnesses. Mr. Cron, referring to Mr. Allen's charges said that the Canadian holdings of the interests for which he spoke were very small as compared to their American holdings.

Now comes the timely definition that a "flapper" is a young bird that has not yet learned to fly. Certainly the "flapper" does give all the signs of inexperience.

It is said that as a result of General Dawes' action that no appropriation for free seed distribution is in prospect. But the protest will not be as loud as some people are anticipating. Did you ever find any of these free seeds that were of good variety or that would grow?

Just about the time of the robbery at the Illinois avenue lunch room Thursday night, an automobile was seen on East North street, drawn up to the curb. The engine was kept running. The indications are that the highwaymen escaped in this car. Perhaps state policemen on duty along the highways might have been of some service in this instance.

A great deal of space is devoted to discussing why boys leave the farms. When children of men engaged in other lines of business did not happen to pick the same lines of work that their fathers followed, no one had any special interest in the matter. It seems to be entirely different with the farmers and their boys.

Get ready with the New Year's resolutions, for the beginning of 1922 is very near at hand. There is an old and true saying that it isn't a bad thing to make good resolutions, even if they last only a very brief time. The intention and hope to be more careful or circumspect or industrious is next only in importance to accomplishing those very things.

In Baltimore one of the labor organizations has started agitation for a compulsory voting law in the state of Maryland. The agitation is the result of figures showing that in recent elections less than fifty per cent of those entitled to cast their ballots appeared at the polling places. There are some sound arguments in favor of such a law. The loudest objections will be those persons who are in the habit of failing to vote and then protesting against the election results.

Morgan county people will be pleased to know that a superintendent for the tuberculosis sanatorium has been chosen and that the institution is to be opened in the course of another month. Public sentiment strongly endorses the sanatorium work and the action of the county board and sanatorium trustees in opening the sanatorium with plans for operation at a moderate cost will be generally approved.

A London scientific journal states that medical men after long research have concluded that talking adds to longevity—that those who talk the most live the longest. This causes an exchange to say if that be true Senator Jim Reed, of Missouri, ought to live 1,500 and Senator Pat Harrison, of Mississippi, 1,200 years.

INTERNATIONALISTS WANT CANCELLATION.

Notwithstanding the occasional declarations from the Harding Administration that there is no intention of abandoning our claims against foreign countries on account of the war loans, and in spite of the frequent manifestations of public disapproval of any such policy, the internationalists are still active in their propaganda in favor of a cancellation of the war debts due this country. If persistence could win a cause, they would certainly win for their European friends this great prize of eleven billion dollars.

It is with deep regret that most Americans discuss this subject at all. Those who believe that the debts should be paid in accordance with the spirit of the obligation, would never mention it but for the fact that the propagandists in favor of cancellation are not only extremely active but utterly unfair. They would leave the impression that the United States will not have performed its due part in the winning of the war unless it contributes this eleven billion dollars to the treasuries of European countries in addition to the twenty billions we have spent from our own treasury. The United States entered the war late, it is true, but, after entering, it spent without stint in money and property and human life.

BUSINESS IN THE COMING YEAR.

(National Bank of Commerce, N. Y.)
Conditions in the United States today indicate that the year 1922 as a whole will be more satisfactory to business than the year just ended. Our forecast is that profits will depend more on economy of operation than on expansion of volume. With the many favorable factors now operating, business men should not fear to make plans for the new year, but they should plan with care and conservatism, and with constant effort toward reduction of costs.
Financial improvement continues. Progress has been made in reduction of excess stocks of manufactured goods. Accumulations of raw materials have been reduced.
It is too much to hope to destroy the anarchism of armament at one blow, but in so far as concrete

results may be attained, they offer the first real hope of recovery from the economic stagnation of the world. A combined saving by the United States, the United Kingdom and Japan on armaments of only \$500,000,000 in a single year is equivalent to the pre-war value of the exports of wool from both Argentina and Australia for nearly three years.

TENANT FARMERS MET YESTERDAY

Meeting Held at Farm Bureau Office—Talk About Farm Rentals and Present Farming Conditions.

The tenant farmers held a meeting at 1:30 p. m. Friday at the Farm Bureau office, which in point of enthusiasm and fairness compared favorably with any farmers' gathering that has ever been out to attend. F. R. Watson, H. D. Crum, J. B. Shibe, C. N. Kinnert, Henry Wax, R. H. Blimling, Ed Scott, Howard Stevenson and Roy McKinney discussed our present systems of renting. The most of those present threw bouquet after bouquet at their landlords and had very little to complain of. A number who are farming on the fifty-fifty basis seem very content. However, the majority favor a cash rental system and a long time lease if the rental is low enough. They also favored a movement for a general decrease in corn acreage provided their landlords were willing. They were a unit in favoring a large acreage of legumes. In regard to the price that would move the 1921 corn crop, they were not agreed. Several had already sold their corn at 40c, but they were not satisfied for they knew it was below the cost of production.

Associate Adviser H. J. Rucker, spoke in favor of more soybeans.

Vernon Vaniman, Assistant State Leader of Farm Advisers was present and suggested that landlords and tenants could very properly talk about building on rented places, the fences and the use of limestone and phosphate. At the conclusion of the meeting, Farm Adviser Geo. B. Kendall, who had charge of J. B. Shibe and R. H. Blimling to confer with the corresponding committee from the landlords at the Farm Bureau office at 1:30 p. m. Saturday. Full publicity will be given to the recommendation of this joint committee.

CLOTHING MANUFACTURER SEEKS LOCATION HERE

Felix Rothschild, president of the Rothschild Clothing Co., of Chicago, was a business visitor in Jacksonville yesterday. Mr. Rothschild is considering the establishment of a clothing factory in a down state city, to be operated in connection with his Chicago establishment. He had a conference here with Albert Renner of the Jacksonville Tailoring Co., and might meet with directors of the Chamber of Commerce.

Mr. Rothschild is not asking a bonus and at this time simply wishes to rent a building as a suitable location for the business.

Vice President J. W. Merrigan presided at the conference last night and he with Secretary Welch and three directors will serve as members of the committee to seek a building or rooms suited to the purposes of the clothing manufacturing plant. Mr. Rothschild is to return one day next week for a further conference.

Worst is yet to come in New York

New York, Dec. 30.—The worst is yet to come—this is the view of New Year's Eve, taken by city officials still dealing with the dead and injured laid low by wood alcohol in Christmas drinking bouts.
The police were still seeking the source of the poisonous liquor with which the city has been deluged during the holidays, causing eleven known deaths and presumably a number of others who not received official notice because the victims died without medical attention.

TWO KILLED IN RAILROAD WRECK

Corbin, Ky., Dec. 30.—Two women were instantly killed and four children and one man were seriously injured here late today when a Louisville and Nashville passenger train hit the automobile in which they were riding.

The dead are Mrs. Maude Brock, 28 years old and her mother, Mrs. Dale Jones.

Oscar Brock, husband of Mrs. Brock, their three children and the ten year son of Mrs. Jones were seriously injured.
The oncoming train was hidden from the view of the automobilists at a road crossing.

GEOLOGICAL SOCIETY CLOSING ITS MEETING

Amherst, Dec. 30.—The annual three days' meeting of the Geological Society of America came to a close late this afternoon. Ann Arbor, Mich., was selected for the meeting in 1922 and the official council tonight decided upon three days during Christmas week next year for the thirty-fifth annual meeting.

A. B. Read of South Fayette street has returned from Mound Valley, Kansas, where he has been visiting for the last four months with his brother, and also his niece, Mrs. James Lear.

Mr. Read is looking well and reports a fine time in the Sunflower state.

Mrs. Cole Y. Rowe of Chicago is in the city for a few days' visit at the home of Mr. and Mrs. F. H. Rowe.

James Barnes left last night for Chicago on the return trip to the east to resume his work in the Harvard law school.

MORGAN COUNTY FARM BUREAU NEWS NOTES

In the monthly issue of the Farm Bureau News the following paragraphs are given:
State Meeting Springfield, Jan. 11-12.
The annual meeting of the Illinois Agricultural Association is near enough at home for every Morgan county farmer to attend. It will be held in the St. Nicholas hotel, Springfield, on January 11th and 12th.
Messrs. Charles Gibbs and C. L. Hawker have been selected by the executive committee to be Morgan county's voting delegates to the executive committee to be attended in a body. Every member of the Farm Bureau is urged to attend one of these days' meetings if not both.
There are good oiled roads all the way to Springfield, and we are asking the weather man for two good days, so there will be no excuse for not going. Here is your chance to learn at first hand exactly what your money is doing to help yourself and your neighbor. Live Stock Shippers Plan Year's Program
At a meeting of representative live stock shippers of the county, it was decided that the work of marketing of livestock should be developed along the lines of organizing local shipping associations, until every shipping point in the county will be served by one; and in encouraging the farmers to make use of these associations; then after these have been developed to call another meeting of the directors and members of these associations for developing a plan whereby the work of these could be co-ordinated thru a central point.
Landlord-Tenant Conference.
In the near future we expect to call a first meeting of land owners, and then one of renters. The slump in farm prices has brought new problems to both landlord and tenant. A frank discussion of the economic situation will prove beneficial to both parties. Plan to attend.
Chinch Bug Proof Corn
The White Democrat Corn shown by C. P. Henderson of Liberty was grown in Cass county where it proved its worth. This is the corn for those who are in a part of the county where bugs are numerous or where the land is infertile. It is intended to get a supply of this seed, let us hear from you at once. We could get this awhile back for \$2.00 per bushel. Last spring it sold from \$5 to \$10 a bushel.
Clover Seed
There is no great supply of home-grown seed. Some has been sold at \$10.00 per bushel. Insist on having all clover or other grass seed analyzed and labeled according to the Illinois Seed Law. If you must buy, order early.
National Shipping Program Effective
Commission companies at the terminal markets are planning on lowering their rates as soon as the producer owned companies begin operating. The credit for such reductions belongs to the farmer organizations whose marketing plans have made many dealers see that they must adjust their prices on a more efficient and business-like scale. Follow closely the work of our own Terminal Commission Company at the National Stock Yards which begins operation on January first.
Farm Account Books
We have a small supply and will distribute them free to members as long as they last.
Status of U. S. Grain Growers' Inc.
At present 29,560 members and 787 elevators have joined this organization. This is the farmers' marketing organization planned by the committee of seventeen. Your Farm Bureau loaned them \$3000 for organization purposes and certainly want to see it succeed.
Near East Relief
While the Farm Bureau is not using its organization to solicit for the Near East, the executive committee a short time ago did endorse the move as worthy. We do not care to duplicate the work of the organizations handling this project.
Spring Pig Feeding
Now is the time to begin feeding that spring crop of pigs you are expecting, by feeding the sow. Do not neglect her mineral and protein feed. No sow can produce normal healthy pigs on just corn and water. See that she has her tankage or skim milk and a good mineral mixture before her all the time.
Soy Beans
We have a supply of Ebony, Mongol, and Virginia in the county. \$2.50 per bushel will quite likely be the top price in the spring. Some of our growers are willing to sell for \$2 provided they are taken at once. You will find it worth while to plant beans in every hill of corn not only for the fertility they will add to the soil, but as a protection against chinch bugs.
Poultry Culling Results
During the past ten days eight flocks of poultry have been culled. The per cent of non-producers has run from ten to twenty per cent. The feed which these culled during a year if sold in the form of corn and oats, at 30c per bushel will more than pay a membership in the Farm Bureau for each of the eight farmers.
Eliminate Drafts
Roup and colds are prevalent at this time of year. Nearly 100 per cent of this trouble is caused from young hens roosting in drafty places or places that are too close. No drafts but plenty of fresh air is needed for healthy chickens.
Club Work
As we have just finished the Junior Corn show, plan to raise something for next year's show. If you know of boys or girls who would be interested in a sow and

LETTER CLUB, tell them to select their breed soon, as work of that sort starts March 1st. If they are interested in a pure bred gilt club, that work will start June 1. If they are interested in getting a good calf, of either the dairy or beef breeds, we want them into a club. In addition to this we really want poultry, canning, garden and flower clubs.

MRS. T. L. MORRIS DIES AT HOME IN QUINCY

Deceased Graduated Here at the Female Academy—A Frequent Visitor In After Years.
The death of Mrs. T. L. Morris occurred at her home in Quincy as the result of an attack of heart disease. Mrs. Morris before her marriage was Miss Lillian Collins, a daughter of the late William H. Collins, long a prominent resident of Quincy. As a young woman Mrs. Morris was a student at the Presbyterian academy in this city and was known to a great many local people at that time. In after years she was a frequent visitor at the home of Miss Lucy Barry and other friends and many Jacksonville people will sincerely regret to know of her death.
The following facts about Mrs. Morris are taken from the Quincy Whig-Journal:
"Of the immediate family the husband, a daughter, Miss Mary, and a son, Collins survive. The husband is a son of the late Isaac N. Morris, member of congress and otherwise prominent in the history of the city more than a half century ago. Her father, the late William H. Collins, was the founder of the Collins Plow company, and for years a leader in political and educational matters. He has been a member of the legislature, the city council and for a long time president of the board of education. Mrs. Morris, herself in her younger days was a leader in the social set of the city, taking an active part in the Friends in Council and other organizations, as well as in matters pertaining to the Congregational church."
Mrs. Morris was born in LaSalle, Ill., in 1858, and came to Quincy as a very small girl, and with the exception of a few years after her marriage when she lived in the East, had been a resident of the city ever since. She was educated in the public schools of Quincy, afterward attending the Johnson college here. After finishing there she attended the Presbyterian academy at Jacksonville, from which she graduated. Lillian Collins and T. Lucian Morris were married April 18, 1883, by Rev. J. M. Sturtevant, who was president of Illinois college while she was a student at the academy. A son, William Collins Morris, and a daughter, Miss Mary, were born to them."

D. C. CARSON DIES FROM INJURIES

Local Resident Passes Away at Hospital In St. Louis—Injured In Automobile Accident November 7th.

Word was received here yesterday of the death of D. C. Carson of this city which occurred in Josephine hospital, St. Louis, November 7. Mr. Carson, who was for many years a resident of this city, started for New Orleans to spend the winter. He stopped off in St. Louis for a visit with friends.

While taking an automobile ride he sustained a fractured hip and other injuries when the automobile in which he was riding collided with a truck. He was brought to Josephine hospital but the shock together with his advanced age made his recovery a matter of doubt from the first. He grew gradually weaker until the end came Friday.

Decedent was over 70 years of age and was a well known resident of the city. He was a brick mason by occupation and followed that calling for a long period.

Mr. Carson was also well read, devoting much time to books and at various times contributed articles to the press on subjects of local interest. These communications were phrased in excellent English and were always to the point.

He leaves one brother, William Carson, of this city, and a number of nephews. Funeral services will be held and burial made in St. Louis.

Methodists to Have Conference

Jacksonville will have a conference of the Methodist Episcopal ministers of this area here January 4. Three sessions will be held in Centenary church. Bishop Nicholson of the Chicago area, will deliver an address on the day's program. This is one of the many smaller conferences being held all over the country as follow-ups of the great international meeting in Detroit.

The following program will be given:

Wednesday, Jan. 4th, Morning Hour.

10:00. Devotions—Samuel Graves.

10:15. Personal and Organized Religion—J. A. Betcher, Ashland; George M. Hayes.

10:35. Life Service and Christian Training—A. L. Wood, Auburn.

10:50. Parish and Community Service—C. M. Corrie, Winchester.

11:05. Illustrated Lectures: The Use of Pageants and Plays—G. W. Randle, W. W. Henry, Virden.

11:30. Missionary Education in the Sunday School and Epworth League—J. M. Armstrong.

11:45. Church Training Night—T. H. Tull.

Afternoon.

1:30. Devotions—Guy Dewhurst, Roodhouse.

1:45. Stewardship in Its Total Meaning—C. R. Robertson.

2:00. The Methodist Episcopal Church in the Present World Situation.

America's Need and Our Reply.

The Overseas Call to the Church.

The Challenge to the Local Church.

Evening Hour.

6:00. Fellowship dinner. C. W. Boston, toastmaster.

Address.

7:30. "The Church and Her World Program"—Bishop Thomas Nicholson, D. D. L. L. D.

Those who attend the fellowship dinner will have seats reserved for them in the auditorium for the address of Bishop Nicholson.

It might be interesting to note some figures of the growth of Methodism since the inauguration of the Centenary movement. The money derived from the Centenary is making it possible to build three new Methodist churches every day in the United States, and this has been done for some time. In a single year, under the Centenary plan, the church has sent out 277 foreign missionaries; while the highest number sent out in any previous year was 97. In 1920 the church received a net gain of 193,000 new members; and the most complete reports obtainable for 1921 give the number gained thus far this year as 123,000.

RECEIVES NEWS OF DAUGHTER'S DEATH

Mrs. A. B. Holmes of Asbury has received news of the death of her daughter, Mrs. Remus Lloyd at Sanger, California, which occurred at that place on December 24.

Mrs. Lloyd was born and reared in Morgan county and her many friends will be shocked to know of her passing away.

Besides a husband and three year old son the decedent leaves a mother and brother living in Morgan county, three brothers residing in California, a brother in Chicago and a sister living in Peoria.

TRADE EXTENSION COMMITTEE MET

The trade extension committee of the Chamber of Commerce met yesterday morning and decided that the January Clearance Sale will be held from the 14th to the 21st, making it a seven day sale instead of a ten day sale as formerly planned. This date will give all the merchants plenty of time to prepare their stock and will also be early enough in the month. The members of the committee were busy all day yesterday canvassing the merchants and signed up a large number to co-operate in the sale.

SENATE PLANNING TO START WORK ON TARIFF MEASURE

(Continued from Page One.)

but in place of the proposed eight cents with a corresponding tax on other dairy products brought into this country was urged by R. W. Balderson, of Philadelphia, secretary of the Interstate Milk Producers' association and A. M. Loomis, of Washington who said he represented the National Dairy Union and the National Grange.

These witnesses charged that the Danes were making the United States a "dumping ground" for their butter whenever they found the English market, their natural outlet weakened.

Charles W. Hollman, executive secretary of the National Milk Producers Federation asked for a duty of four cents a pound on cottonseed, soy bean and coconut oil and 4 1-2 cents a pound on peanut oil with compensatory duties on the raw products from which those oils are extracted.

In asking for protection for the decorative glass industry, Walter West of New York, representing the Decorative Glass Workers association charged that foreign ornamental glass manufacturers were masking themselves behind the church in an effort to have stained glass used in church memorial windows, kept on the free list.

CHAPIN INDEES WIN FROM MEREDOSIA

LOCAL DOKAYS HAVE BASKETBALL TEAM

Is Made Up of Former High School Players—Have Several Games Booked for Coming Weeks.

The local Dokays have a basketball team that is a live wire organization. The team is a peppy combination of former high school talent, and is being coached by Art Reeve. The Dokays have just purchased new uniforms for the team, with jerseys and socks of green and white.

The team has played two games this season, the Franklin Independents and a Bluffs team. Both of these were victories for the Dokays. The next game will be either Ashland or Petersburg on January 7th with a game with the Franklin Independents on the 10th and one with the Waverly K. P. team on the 18th. The games will be played in the David Prince building.

C. P. Seigfried is manager for the team and is finding it increasingly difficult to get games outside of Jacksonville. The poor train connections make it impossible to return from any point at night, making the expense of staying out of town all night more than the other teams will agree to pay. If there are any teams that want games they can easily secure one by communicating with Mr. Seigfried at the county clerk's office.

The members of the team include F. Covey, formerly of the Murrayville High school, F. Jones, also of Murrayville, F. Lucas, C. Stranberg, J. Wood, and Homer Reynolds, all of Jacksonville High school, G. Evers of the Business College and Cook, formerly of the Chandlerville Independents.

SKIDDING CARS CAUSE ACCIDENT

Three automobiles were slightly injured yesterday afternoon in an odd accident that happened on the south west corner of the square. An Oakland belonging to Wes Andell of Winchester, was turning the corner to come east, when the machine skidded and bumped into a Ford driven by William Flynn of the Hart school vicinity. The Ford was turned from its course and bumped into an iron trolley pole, and the Oakland slid along the curbing and hit a Ford sedan, driven by Frank Kinsler of the Lukeman Motor company, which was parked in front of the Peacock Inn. Fortunately none of the cars was badly damaged. The icy pavement is said to be responsible for the collisions.

PITTSBURGH VEIN OPERATORS MEET TODAY

(By The Associated Press)

CLEVELAND, Ohio, Dec. 30.—The Pittsburgh Vein Operators' association, with coal mines in eastern Ohio, will meet here tomorrow to take action on renewing the agreement with the United Mine Workers of America.

The association is one of the groups in the competitive field, composed of four states in which the operators deal as a unit with the miners' union. The decisions of the meeting will be sent to John L. Lewis, president of the miners, in reply to his request for a conference in Pittsburgh next week.

While declining to comment on tomorrow's meeting, D. F. Hard, secretary of the association, pointed out that a refusal on the part of the association to set a date for the scale conference for the entire central field, did not necessarily carry with it a refusal of the association to negotiate with local or district unions of the mine workers.

REPORTS OF BREAK ARE SILLY—HARDING

WASHINGTON, Dec. 30.—President Harding today characterized as "silly" reports that relations between him and Secretary Hughes had been greatly strained by developments during the arms negotiations.

The president's statement was made in reply to a question asked at his conference with newspapermen today based on published stories that Mr. Hughes was contemplating resignation from the cabinet as a result of the difference of view over the scope of the four power treaty and various other developments since the conference began.

Beyond saying that such reports were "silly" Mr. Harding would not talk about the subject.

DIVORCEE HELD ON LARCENY CHARGE

Detroit, Mich., Dec. 30.—Caroline Murray Boyer, divorced wife of Joe Boyer, millionaire automobile race driver, was detained by police here tonight on a charge of larceny. The complaint was filed by W. J. Jury of Denver and San Francisco, who alleged that Mrs. Boyer had made extensive purchases at Detroit stores on his account. The woman, police said, claimed she acted by Jury's permission.

APPROVES PLANS FOR OPERATING SHIPS

WASHINGTON, Dec. 30.—President Harding has approved tentative plans for the organization of a large private corporation on the Pacific coast to operate merchant ships acquired from the government, according to a telegram sent tonight by Chairman Lasker of the shipping board to the president of the chambers of commerce of San Francisco, Portland, Seattle, Tacoma, Los Angeles, San Diego and Oakland.

RECEIVERS ARE APPOINTED FOR GRAIN COMPANY

(By The Associated Press)

CHICAGO, Dec. 30.—Petitioning creditors appeared before Federal Judge K. M. Landis today and filed an involuntary petition in bankruptcy against E. W. Wagner & Co., grain and stock brokers, which failed today.

The petitioners are Joseph Anderson, H. Ernst and the Wood Repp Company, all doing business on the Chicago Board of Trade from which the Wagner firm was suspended today.

Attorneys for the petitioners set up liabilities as follows: Joseph Anderson, \$1,500; H. Ernst, \$1,500; and Wood Repp Company, \$800. The petition declares that the estate of the company has substantially \$2,000,000 in assets and for the preservation of the estate it is necessary that a receiver be appointed.

There is in the hands of the debtors of the bankrupt a large amount of stocks and bonds which must be gathered together and held by the receiver for the benefit of the estate, the petitioners said, and also declared the company holds securities of large value which must be conserved for the creditors.

Judge Landis appointed the Central Trust company as receiver with power to take charge of and hold the estate and to continue said business and for such order as shall be just and lawful.

MONGOLIA TO HAVE REAL JUSTICE

CHITA, Siberia—(By The A. P.)—The minister of justice of the new Mongolian revolutionary government has declared that Mongolia is now to have real justice and real laws administered in real courts for the first time since the night Ghengis Khan ruled at the now ruined city of Karakorum and made all Europe tremble before his power.

Since Ghengis Khan, the new minister of justice says, princes had taken the law into their own hands and administered it with great brutality. But now there is to be a new code and a new system organized by the independent authorities at Urga, who displace the Chinese limitations under which they have been laboring.

GREEKS EXPRESS THEIR SURPRISE

SOFIA—(By The A. P.)—Greece has expressed official "surprise" that the Bulgarian legation has not been opened in Athens, altho the Greek legation in Sofia has been re-established for more than a year.

Greek officials realize that Bulgaria wishes to avoid doing anything that might be construed as recognition of King Constantine, until the allies make some move in that direction. The Bulgarian minister to Greece, appointed a year ago, is still here with his staff awaiting orders to go to Athens.

ILLINOIS WESLEYAN WINS FROM COLGATE U.

Bloomington, Ill., Dec. 30.—Illinois Wesleyan University basketball team opened its season on the local floor tonight with a win over Colgate University of Hamilton, N. Y., whose team is making a tour of the middle west. The final score was 20 to 16. The first half ended with Wesleyan leading 11 to 7 and the locals were never headed. Haussler and Mace were the outstanding Wesleyan players, while Captain Linnehan played the best game for Colgate.

LIBRARIES ARE MOVING INTO THE COUNTRY

CHICAGO, Dec. 30.—Libraries are moving out into the country. Joseph H. Wheeler, librarian of the Youngstown, Ohio, library told the American Library association today at a session of its mid-winter meeting. Cross-road stores, horseback and motor messengers and the parcel post will be used in this service he said.

IOWA WOMAN IS ACCIDENTALLY KILLED

CEDAR RAPIDS, Ia., Dec. 30.—Mrs. V. K. Tennis was instantly killed at Iowa Falls, this afternoon by the accidental discharge of a shotgun. She and her husband were just starting to drive to Waterloo to spend New Year's day with relatives, and the robes were being adjusted about her so her husband could get into the automobile when the shotgun was discharged.

ILLINOIS DEFEATED MILLIKIN UNIVERSITY

Urbana, Ill., Dec. 30.—The University of Illinois basketball team won 35 to 20 from James Millikin University in a practice game here tonight. Illinois lead 13 to 9 at the half but did not secure a safe lead until near the close of the game.

DUNDEE DRAWS WITH JACKSON

W. AND J. TAKES WORKOUT FRIDAY

(By The Associated Press)

PASADENA, Calif., Dec. 30.—A football squad of 19 players from Washington and Jefferson College of Washington, Penn., arrived here today to do battle with the University of California team here Monday. The presidents immediately after formalities of reception adjourned to the army air and balloon school at Arcadia, about ten miles south of here for a snappy workout. They were pronounced in fine fettle, and will hold two workouts tomorrow.

The Bears went thru a fast workout early today and then were taken to the motion picture studios in Los Angeles to see stars of another cast and incidentally to be "shot" frequently by clicking cameras. The Bears enjoyed the clearing weather. Only a few drops of rain fell and the turf at Tournament Park, the scene of Monday's clash, grew perceptibly drier as the hours passed.

TOLSTOI DISCIPLES ENCOUNTER TROUBLE

Find It Difficult to Carry Out His Ideals—Woman Is Said to Be Cause of the Disturbance

YASNAYA POLYANA, Russia—(By The A. P.)—The idealistic community, composed of fifteen young men and three women, living on the estate of the late Count Tolstoy, is encountering difficulties in its effort to attain Tolstoyan perfection of freedom.

The obstacles include unrequited love of one of its members, lack of money, food and clothes and the antagonism of a cunning, land-hungry peasantry. The latter occupied the village commune outside the gates of the park enclosing the Tolstoy home and are watching the new experiment with jealous fear that the members of the community may stray from the land promised to the peasants by the Soviet government and subsequently by the Soviet government. Suspicion has sprouted in their minds that the ideal community will eventually take over many thousands of the acres of forest lands composing the now nationalized Tolstoy estate.

The same disappointment which Tolstoy, himself, encountered when he characterized his life as a huge tragedy because family ties prevented his living humbly, alone and free, loving every man and woman equally well, has begun to be experienced by at least one member of the group of idealists. They planned to take up life where Tolstoy left it and to live it as he dreamed of living it. But a handsome young woman member of the community, endowed with the "wide nature of the Russians," is believed to have become a disturbing element and to have caused Kvasov, a stalwart young man in the group, to declare his intentions to walk to India and there pass his remaining days in contemplation, like the aged Hindus.

Only a claim jumper could define the exact status of the Tolstoy estate. Originally, when inherited by Tolstoy, it included 3,500 acres, of which the count bequeathed about 1,300 acres to the peasants of the commune; but the Soviet government took this land away from them to make the whole domain into a national museum.

ASKS PRAYERS FOR PEACE OF WORLD

St. Louis, Mo.—(By A. P.)—Prayer that "peace would come to the people of the whole world" is asked by Archbishop John J. Glennon in his annual Christmas pastoral letter to the Catholic diocese of St. Louis. In the letter, the archbishop says:

"While these later years have been storm tossed and while there was no peace among nations but instead hatred and war and strife, gladly do we chronicle today the present bright promises of peace. Since however its reign is not fully established our prayer should be that that blessed peace of Christ would come in all its happiness to the people of the whole world."

WILL CARRY GROUP INSURANCE FOR EMPLOYEES

New York, Dec. 30.—Recently announced plans of the Erie and the Delaware & Hudson railroads to cover all their employees with group insurance were characterized tonight as "part of a general scheme to wean the men away from their unions," by Hugh Frayne, general organizer of the American Federation of Labor.

FRANCE TAKES PRIDE IN DEBTS, SARRAUT SAYS

Washington, Dec. 30.—Declaring the French arms conference delegation had been "given to understand" that "we would do well to pay our debts," Albert Sarraut, delegation head today told the conference naval committee: "we feel no shame for those debts nor do we forget them;" we regard "them with pride as the wounded man his scars."

LIABILITIES OF BANK WILL REACH 4,000,000 LIRE

Italian Institution is Given Year to Get on Feet

(By The Associated Press)

ROME, Dec. 30.—The total liabilities of the Banca Italiana di Sconto, which closed its doors on Thursday, and today was granted a moratorium of one year in which to endeavor to straighten out its financial tangles, will reach four million lire.

This fact became known today by the publication of the petition of the bank for a moratorium. The petition added that the moratorium would enable the institution to tide over its "severe financial crisis and that the bank anticipated a complete re-establishment of its credit. The petition attributed the situation of the bank to the general European economic breakdown.

The history of the bank was outlined in the petition for the moratorium.

Before 1915 it had a capital of 15,000,000 lire. Then by leaps and bounds the capital was increased during the war and in 1919 it had reached 315,000,000 lire. The bank's holdings were augmented principally thru the prosperous times of the war and the activities of the Ansaldo company, which manufactured great quantities of munitions.

LAW IMPROVEMENT UP TO LAWYERS

Chicago, Dec. 30.—Future improvements in law should come from the lawyers of the country who appreciate their duty to the nation, Joseph V. Beale, of the Harvard Law School reported today in behalf of a committee at the nineteenth annual meeting of the association of American law schools.

"There is need for improvement in law," the report said, "and this improvement must come from lawyers who appreciate their duty to humanity and to the nation."

SMULSKI GETS CHEVALIER'S CROSS

Chicago, Dec. 30.—John F. Smulski, former state treasurer, was presented with the cross of a chevalier of the Legion of Honor by the French consul here today. Mr. Smulski was chairman of the national Polish committee during the war and it was in recognition of his services in this capacity that the honor was conferred.

TEACHERS OF SPEECH ELECTED

Chicago, Dec. 30.—Dr. N. Merry of the University of Iowa, was elected president of the National Association of Teachers of Speech at the close of an annual convention here.

Other officers elected were: Vice president—John D. University of Pennsylvania. Secretary—Miss Louise Kalamazoo, Mich. Treasurer and business manager—Prof. A. K. Immel, University of Michigan. Editor—Prof. Charles H. Woolbert, University of Illinois. The next convention will be held in New York.

SEARS ROEBUCK WAS PROMINENT FEATURE

By Associated Press.
 NEW YORK, Dec. 30.—The sign of the year was marked by conflicting and erratic fluctuations.

Heavy cash sales to meet income tax returns occurred in many of the low priced issues but representative rails and favorite industrials were comparatively strong. Overnight developments such as the strengthening of the financial position of the Sears, Roebuck company further favorable November railroad earnings and advances from Montana indicating early resumption of operations in the copper mines sounded a note of optimism for the coming year. Many rates stiffened in consequence of unexpectedly large renewals in 1922. Opening at five per cent call loans rose to 5 1/2 at noon, with a further advance to six per cent in the last hour. Sears, Roebuck was the most prominent feature of the day altho its extreme advance of slightly more than 7 points was reduced to 4 1/2 at the close.

Studebaker, Railway Steel Spring, American Ice, Woolworth and Sugars were among the other stocks to show substantial net gains. Sales amounted to 775,000 shares.

The bond market was active as a whole, but irregular movement marked the foreign division. Victory 4 1/2 featured the domestic list, odd lots selling at \$100.20 the year's maximum quotation. Total sales (par value) \$17,350,000.

VARIED PROGRAM AT
ROTARY CLUB MEETING

Ben Roodhouse Made Brief Talk
at Friday Luncheon of Club—
Other Interesting Features
Marked Program

The Rotary club had an unusually large attendance at the Friday luncheon and a varied program. President Riley introduced eight or ten guests and then Miss Helen Sorrells gave a splendid group of violin numbers. T. M. Tomlinson as a member of the program committee had provided an unusual feature in the form of questionnaires presented to ten of the members. There were five sets of such questions and one group of men had some information in advance while the other five on opening the envelopes handed them looked at the questions for the first time. This proved a very interesting "stunt." Some of the men who had no remarkable familiarity with somewhat unusual facts. Some of the answers by both groups added, as they were intended, to the hilarity of the occasion.

At the conclusion of the questionnaire period Ben Roodhouse of the Eli Bridge Co., made a very interesting 10 minute talk on "Optimism in Business." Mr. Roodhouse is the editor of the Optimist, the trade organ of the Eli Bridge Co., and is a thorough believer in the gospel of optimism as related to satisfactory business conditions.

Mr. Roodhouse said that the company had sold 35 Ferris wheels the past year and has now commenced the work of building 40 for the coming year, in the firm belief that business conditions will be better in 1922 than has been true in the year just closing.

Among the guests yesterday were Frank O. Osborne, St. Paul, W. A. Furr, Carbondale, Ill.; Rothschild, Reginald, Chicago; Rev. J. F. Langton, Dr. T. O. Hardesty, Albert Renner, Floyd Ator, David Dawson, Desan Ames, Jacksonville; George W. Scott, Connorsville, Ind.; Mr. Sheffield, local representative of the internal revenue department; Ray Hartman, Jacksonville; Edward Mahoney, Springfield.

The men who presented the questionnaire part of the program were F. J. Heint and M. C. Hook, Frank Byrns and James Gurette, Judge H. P. Samuell and George W. Brown, W. E. Sullivan and C. J. Buhner, W. T. Capps and C. A. Johnson.

The members were of one mind in the comment that Mr. Tomlinson and his associates on the program committee had done an excellent piece of work in arranging for this Friday program.

FOR BANK BUILDING

Plans Practically Completed for
New Home of Elliott State Bank
May Not Be Erected Until 1923

Engineers representing the firm of Puckey & Jenkins, Chicago architects, are in Jacksonville to secure measurements needed in connection with the proposed new building for the Elliott State Bank. The plans for the bank building are practically completed although it is uncertain just when the building will be erected, the probably not until 1923.

The time for the erection of the building will depend largely upon the market conditions relating to materials and other costs entering into building construction. As has been previously stated, the new home of the Elliott State Bank will be exclusively a bank building and in every way commodious. The general dimensions will be 40 by 60 feet and the building will occupy the ground now occupied by the J. Herman and J. A. Long establishments on the east side of the public square.

The architects have had abundant experience with bank buildings and the owners of the Elliott State Bank feel that they have adopted a plan which will give Jacksonville a building of which it can be justly proud.

AUTO STRIKES
ISLAND LIGHT

Car Driven by W. B. Rimbej Breaks Light at Square and West State Street—Car Damaged and Occupants Cut by Flying Glass.

A near serious accident occurred at 1:30 this (Saturday) morning when a Ford car driven by W. B. Rimbej of Woodson accompanied by John Dobson, also of Woodson, struck the island light at the intersection of West State street and the square.

The momentum of the car cut the light pole throwing it across the radiator and smashing the windshield. The front axle was badly damaged but total extent of damage done the car could not be ascertained. Slight cuts from flying glass was all the damage sustained by the occupants.

Mr. Rimbej stated he was driving south on the square and as he entered West State street a car came out of that street and hit him broadside forcing him into the island pole. The car, that struck Mr. Rimbej's car failed to stop and its identity for the present is unknown.

DR. MARTINI TO HEAD
T. B. SANATORIUM

Superintendent Chosen by Board of Trustees—Has Had Years of Experience in Tuberculosis Work and Will Begin Duties Here Feb. 1st.

Dr. W. C. Martini is the superintendent of the Morgan county tuberculosis sanatorium and will enter upon the duties of his office here Feb. 1. This important announcement was made yesterday by trustees of the sanatorium, A. A. Curry, W. R. Turnbull and Dr. T. O. Hardesty. The contract was signed yesterday with Dr. Martini and came after several weeks of negotiation.

The trustees have for some months been in search of a man with experience to fit him for the superintendency of the Morgan county institution and the trustees believe that Dr. Martini will meet the requirements. As indicated, the new superintendent will enter upon the duties Feb. 1, when he will come to Jacksonville from Chicago accompanied by his wife and take up his residence at the sanatorium.

Equipped With 30 Beds
Dr. T. O. Hardesty, secretary of the board of trustees, said last night that the work of finishing and furnishing the sanatorium has been pushed along as rapidly as conditions would permit in the recent weeks and that by the opening date the hospital will be equipped with about 30 beds. It is the special purpose of a sanatorium of this kind to start tubercular people upon the way to recovery and to train them in taking care of themselves so that they will make personal improvement and also avoid spreading the disease.

Ordinarily a tubercular person will be in the hospital not more than from 3 to 6 months, so that with an equipment of 30 beds a considerable number of patients can be cared for in a year's time. There are now 60 to 65 tubercular persons in the county who are known to the sanatorium management.

HAD WAR TIME EXPERIENCE

Dr. Martini took his medical training at Loyola university in Chicago. He was in the medical service during the war time and overseas served at several base hospitals, being assigned to work with tubercular cases. After his release from the army service, Dr. Martini for a year was attached to the Chicago Municipal Tuberculosis sanatorium and more recently has been in the service of the U. S. department of public health, his special work being with the U. S. Veterans' board.

He has specialized all along in tuberculosis work and understands the cottage and sanatorium methods of treatment. Several Jacksonville physicians had conferences yesterday with Dr. Martini and he impressed all of them as a man with an understanding of the problems which exist in connection with the care of tubercular patients.

Several Jacksonville physicians had conferences yesterday with Dr. Martini and he impressed all of them as a man with an understanding of the problems which exist in connection with the care of tubercular patients.

Mention has already been made of the fact that the Morgan county tuberculosis sanatorium affords free care to residents of the county who are tubercular, and that the minimum charge of \$21 a week will be made for non-residents.

MAY CARE FOR EX-SERVICE MEN

It is the expectation of the trustees to care for a number of ex-service men if space in the sanatorium can be offered the government for this purpose.

In the matter of general finance the trustees have a number of plans they are expecting to work out in order to help meet the general expenses for operating the sanatorium. Something will be done along the line of gardening and the production of milk and various ways will be sought to produce revenue. The printed matter that is being prepared for circulation among patients lays emphasis on the thought that the sanatorium is a training school where those who are affected with tuberculosis may learn how to take care of themselves and not endanger the persons with whom they come in contact.

Dr. Martini will have one registered tuberculosis nurse as an assistant and other assistants will be practical nurses, the number being in accord with the total of patients in the sanatorium.

While the hospital will open with equipment for the care of about 30 persons, this capacity can be increased as the need arises.

LOOKING FOR SITE
FOR CLOTHING FACTORY

Confers With Trade Extension Committee and Other Organizations—Believes Small City More Satisfactory for Plant.

Felix Rothschild, owner of the Rothschild Clothing Manufacturing company, Chicago, is considering Jacksonville as a site for a factory. He was here Friday conferring with the Trade Extension committee and touring the city for possible locations of the factory.

Mr. Rothschild desires to move his factory to a smaller city where conditions are more satisfactory, he believes. This is the second large industry considering Jacksonville for a factory site. The International Shoe company has this city on its list of possibilities.
